Arboretum Plaza I, Suite 390
Austin, TX 78759

April 10, 2012

Internet AutoParts (IAP) is pleased to announce that the Bay-MasterR shop management software system has been integrated with IAP.

Bay-masterR

SHOP MANAGEMENT SOFTWARE

For Service Dealers who have the Bay-masterR shop management software package, they need to contact Bay-masterR to get setup. Please contact Art Rezac at 800-922-2378 for details.

Bay-masterR support will verify each Bay-masterR installer-account for the Parts Distributor. Bay-masterR support will contact each Automotive Service Professional and walk them through the setup on the shop's computer to ensure it is working properly.

For additional information about Bay-masterR, please visit their website at www.bay-master.com
