

# Under the Hood

this issue

InterChange **P.1**

Suggestions **P.2**

ISSUE 7

July 14, 2011

## Key Factoids:

In 2010, over 63.3 million automobile batteries were recycled which contained over 1.4 billion pounds of lead.

The first hybrid car was built in 1899 by Ferdinand Porsche.

An average new truck tire needs a half of a barrel of crude oil to produce it.

The first product to have its bar code scanned was Wrigley's gum.

## InterChange

Part searches with the electronic InterChange is convenient and easy to use.

Date	Year	Make	Model	Description
07-07	1993	BUICK	REGAL	
07-07	2003	CADILLAC	CTS	
07-06	2002	TOYOTA	CAMRY	
07-05	1993	BUICK	REGAL	
07-01	2000	DODGE TRUCK	DAKOTA	
07-01	1988	LINCOLN	TOWN CAR	
07-01	2001	DODGE TRUCK	DURANGO	
07-01	2007	FORD TRUCK	F150 PICKUP	
06-30	2006	TOYOTA TRUCK	TUNDRA PICKUP	
06-29	2002	LEXUS	IS 300	
06-29	2006	CHEVROLET TRUCK	EQUINOX	
06-29	2006	FORD TRUCK	EXPLORER	
06-29	2002	FORD TRUCK	EXPLORER	
06-29	2000	FORD TRUCK	F150 PICKUP	

No vehicle is required to use InterChange. Clicking the InterChange tab takes the Service Dealer to the part number entry field. The Service dealer simply needs to enter the OE or Aftermarket number they are looking to InterChange. Assume the Service Dealer took off a radiator hose that had an OE number (XL34-8B274-BA) still visible:

**\* Part Number:** XL34-8B274-BA

**NOTE:** InterChange is to be used as a guide only. Application must be verified.

Enter a part number to locate via InterChange in the textbox to the left. If the part number can be found exactly as entered, the list of matching InterChange parts will be displayed, otherwise you will see additional options here.

After this number is entered and the “Find this part” button is clicked, the results are shown in the following Parts List Page:

InterChange can also be used for Cross Referencing (or InterChanging) aftermarket parts to aftermarket parts or OE to aftermarket parts.

Another feature is the use of wildcards within the lookup. In some cases all of the numbers that are needed to be entered might be smudged or “rubbed off”. In this case either ? or \* can be used. See the help system notes on the use of wildcards.

**How do I use wildcards to find parts?**

A "wildcard" is a special character that allows you to find parts by matching part number patterns. Two wildcards are supported by InterChange:

- The **asterisk (\*)** can be used to specify any part number that is identical up to the asterisk, but can be anything else afterwards. The asterisk cannot be the first or second character in the search string. [more details »](#)
- The **question mark (?)** can be used to specify any part number that is identical except for the question mark character, which will match anything in that position only. [more details »](#)
- The question mark and asterisk can be used in conjunction for even more advanced searches. [more details »](#)

### Technical Tip

**Q: Can a Service Dealer have more than one user id at their location?**

A: Yes! The Service Dealer can create additional sub-users within the administration tab of the application. Simply click the Administration Tab and enter the new user information and click the Add User button.

Additional users make it easy for a shop owner to see who wrote what quotes in case there is a question later.

InterChange can be very useful when looking up marine motors, motorcycle, agricultural, industrial and recreational applications.
